

COVID-19

Screen Online Before Immunization

You can go online to do required COVID-19 screening for your appointment.

- Clinic staff will screen you inside if you do not answer questions online.
- Screening helps us know if you can be immunized today.
- You'll be asked to show us your screening results.

Find the questions at ahs.ca/VisitationScreening/VC or scan the QR code with your mobile device's camera.

We're in this together.
We'll get through it together.
