TO WHOM IT MAY CONCERN:

**SUBJECT:** Pre-Travel COVID-19 Testing at Alberta Precision Laboratories

- Testing for COVID-19 at Alberta Precision Laboratories is carried out using a nucleic acid amplification test (NAT). This NAT is also known as a polymerase chain reaction (PCR) test.
- This test detects the presence of the SARS-CoV-2 virus, which is the causative agent of COVID-19.
- All testing is conducted in a laboratory that is accredited by the College of Physicians and Surgeons of Alberta (CPSA) and/or the College of American Pathologists (CAP).
- Result is reported as attached.

If there are questions or concerns, please do not hesitate to contact Alberta Precision Laboratories, Client Interface Team at +1 403 770 3959.
