

COVID-19

Cancer and COVID-19 Vaccines

In most cases, get the COVID-19 vaccine as soon as it is offered to you.

Do not get the vaccine if you:

-  Are on or have had rituximab treatment.
Talk to your hematologist.
-  Are not sure when you will have a stem cell transplant.
Talk to your hematologist.
-  Have had a stem cell transplant in the past 6 months.
-  Will have a stem cell transplant in the next 3 months.

Keep following all public health measures after your vaccine.
