Stick with the facts. Stick together.

Frequently Asked Questions (FAQ)

1. What is this campaign all about?

The 'Stick with the Facts. Stick Together' campaign is aimed to create a safe space to support staff who have questions about getting immunized. By continuing to build trust, sharing fact-based information and having ongoing conversations with each other about COVID-19 immunization, we can maintain a work environment that promotes worker and patient safety.

2. How can I get involved?

Our actions matter now more than ever. Here's how you can get involved:

- Check out the posters you will be seeing around your site shortly and feel free to put them up in your own work area:
    - [Team Up](#).
    - [Stick Together](#).
    - [Check Your Concerns](#).
- Use our customized [Zoom background](#) to engage with each other and have conversations about COVID-19 immunization.
- Order and wear a [promotional button](#) to encourage people to get immunized.
- Check your concerns with the COVID-19 [Myth Busters information sheet](#).
- Use the [Worker Safety Moment](#) to spark a conversation at your next team meeting.
- Remember to check out [staff COVID-19 immunization rates](#) to support teams to get immunized.
- Post a comment on the [myth-busting tool](#) if you want to fact-check something you've heard about the vaccine. An AHS expert will validate the fact or debunk the myth.

3. Why has AHS launched this campaign?

We know people will have different feelings and concerns about COVID-19 immunization and that's OK. But we should all have the same information and support each other to learn more. This is why AHS is launching an awareness campaign to help teams get the information they need to stay safe and address different feelings and concerns about COVID-19 immunization.

4. If have questions, where can I find more information?

Please visit the [COVID-19 Immunization Insite page](#) often for regular updates. We will continue to update and share campaign resources as they become available.
