

Access AHS Zoom

Activate the AHS Zoom Profile

If you do not already have the Zoom Client app:

- a) Click <https://albertahealthservices.zoom.us>
- b) Click Sign in
- c) Pick your AHS email account. The email should end in “albertahealthservices.ca” and not include abbreviations.
- d) If prompted, accept *Permissions Requested*
- e) The web client opens to your account.
- f) Choose from the menu on the left to open and edit your **Profile**. Note: This is where you can view if you have a basic or host licensed **User Type**, the latter only applies if requested and approved. Refer to the Zoom Support Kit for more information.

This is the Zoom Web Client. The Zoom Client app will automatically download when you start or join your first Zoom meeting, and is also available for download here.

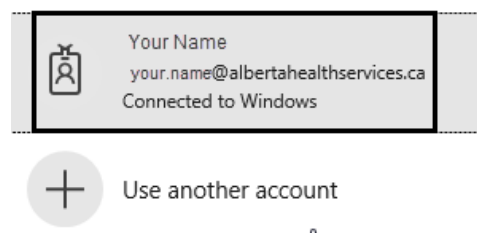

Already have the Zoom Client App?

Ensure you switch to your AHS Zoom account before using your existing app to schedule AHS meetings.

- a) If you have Zoom installed, open the app and click Sign in
- b) Click Sign in with Single Sign On (SSO):
- c) Type **albertahealthservices** (not ahs) in the Company Domain
- d) Click **Continue and Launch Zoom**
