

COVID-19

What to expect with your COVID-19 immunization

We're here to help you. Here's what will happen.

During your appointment you will be:

-  Screened for COVID-19 symptoms and risk factors
-  Asked to sanitize your hands, change your mask and show your identification
-  Seated for your immunization
-  Informed about how you will be immunized and with which vaccine
-  Asked to roll up one of your shirt sleeves and be given a vaccine in your upper arm
-  Given information about how you may feel after your immunization
-  Asked to wait for 15-30 minutes before leaving

It's that easy! For more about your immunization, visit ahs.ca/covid19.
