## COVID-19

## What to expect with your COVID-19 immunization

We're here to help you. Here's what will happen.

During your appointment you will be:

Screened for COVID-19 symptoms and risk factors

Asked to sanitize your hands, change your mask and show your identification

Seated for your immunization

Informed about how you will be immunized and with which vaccine

Asked to roll up one of your shirt sleeves and be given a vaccine in your upper arm

Given information about how you may feel after your immunization

Asked to wait for 15-30 minutes before leaving

It's that easy! For more about your immunization, visit ahs.ca/covid19.
