

CERTIFIED Tobacco Educator

Alberta Health
Services

The Tobacco Reduction Program partners with the Canadian Network for Respiratory Care to provide courses that will allow health professionals in Alberta to be eligible to write the Certified Tobacco Educator (CTE) credential exam.

CNRC Tobacco Educator Workbook

This learning series is free and covers all competency areas required for the CTE exam. The CNRC Tobacco Educator workbook is an optional study guide and desk reference that can be purchased [here](#).

COMPLETION

Congratulations, you are a...
Certified Tobacco Educator!

LEVEL FOUR

Complete levels 1 to 3 below.

Complete final Case Based Assignment 3 weeks before CTE exam.

Write and pass the CTE exam, offered twice yearly through the Canadian Network for Respiratory Care (CNRC).

LEVEL THREE

Applied Tobacco Intervention

Practice intervention skills with the knowledge gained from previous learning units.

LEVEL TWO

Intensive Tobacco Intervention

Learn how to offer intensive intervention with clients.

Tobacco Cessation Pharmacology

Learn about the practical application of tobacco cessation pharmacology.

LEVEL ONE

Tobacco Basics

Learn about tobacco, tobacco use and exposure, and the impact on society.

Foundational Health Educator

Develop skills in behaviour change counselling and facilitation skills to assist clients. This learning unit can be taken at level 1, 2, or 3.

Additional comprehensive tobacco education training that meets the CNRC competencies may be considered. [Contact CNRC](#) directly to determine if your training qualifies.
