Mobile mammography service to visit Provost next month

PROVOST — Women ages 45 to 74 — the group most at risk of developing breast cancer — will have local access to mammography services this spring when Alberta Health Services' Screen Test program visits Provost.

A mobile mammography trailer will be stationed at the Provost Provincial Building (Community Health Services), 5419 44 St., on May 13-18.

Appointments are required. Residents can book an appointment or learn more about the program by calling 1-800-667-0604.

Screen Test is improving access to cancer screening for thousands of women in Alberta communities where mammography is not readily available.

A mammogram is an X-ray of the breast and has proven to be the most effective way to detect breast cancer. Early detection allows for a greater number of options for treatment and a better chance of survival.

Visit <https://screeningforlife.ca/breast/screen-test-mobile-clinics/> for more information and a complete listing of Screen Test mobile sites.

Alberta Health Services is the provincial health authority responsible for planning and delivering health supports and services for more than four million adults and children living in Alberta. Our mission is to provide a patient-focused, quality health system that is accessible and sustainable for all Albertans. Our current focus is on reducing emergency department wait times, improving EMS response times, increasing access to surgeries, and improving patient flow.
