The Alberta Healthy Living Program (AHLP) offers free workshops and one-on-one sessions to help you better manage and/or support someone with a chronic condition.
Education empowers you

You can live healthier by learning what changes can help you feel better and more confident about managing a chronic condition.

It could be small changes, such as watching what and how much you eat or adding physical activity to your day. Or it could be big changes that involve understanding your emotions and how they can affect your health.

The AHLP helps you discover changes—big or small—that will help you live healthier and learn to confidently manage your health.

Who it’s for

AHLP workshops are for Albertans interested in learning how to prevent or manage a chronic condition. Family, friends and caregivers are also welcome to attend. We recommend participants are:

- Capable of participating in group settings
- Able to understand basic English
- At least 18 years of age or older.

Learn to live healthier

Workshops in this guide are designed to help you learn how to prevent/manage a chronic condition and live healthier. Workshops vary by community, but in general cover:

- Disease-specific education for conditions such as diabetes, obesity, high blood pressure and more
- General health topics such as nutrition, reducing stress and sleeping well
- Supervised exercise programs.

Workshops are led by healthcare professionals including health educators, registered dietitians, registered nurses and exercise specialists.

Virtual workshop times are subject to change. For more information and to register call 1-877-314-6997.

### Nutrition: Eating Away From Home

**Sessions**
1

**Who it’s for**
Anyone looking for tips and strategies to prevent overeating while away from home or during special occasions.

**Length**
2½ hours

**Description**
Food is often central to holidays, parties, and special occasions. It also tends to be higher in calories, fat or sugar, and can lead to overeating and weight gain. In this workshop, facilitated by a registered dietitian, you will learn how these occasions can affect what you eat and how much you eat. You’ll leave with strategies to help prevent overeating.

Topics include:
- How buffets, parties, vacation and holiday eating can affect how much you eat.
- Strategies to reduce overeating when you are away from home and during special occasions.

---

### Nutrition Labels: Reading Between the Lines

**Sessions**
1

**Who it’s for**
Anyone who would like to learn more about making healthy lifestyle choices to improve their health.

**Length**
1½ hours

**Description**
Understanding nutrition labels and how to read them can help you make healthy choices. In this workshop, we will breakdown nutrition labels and help you understand them, so you can feel confident about making healthy choices.

Topics include:
- Learn about label reading and understanding the nutrition facts table
- Better understand nutrient and health claims
- Build skills to help you make the healthiest choice at the grocery store.
Supervised Exercise Information Session

Sessions
1

Who it’s for
Anyone looking to learn more about the Supervised Exercise Program and what to expect.

Description
Learning what to expect and asking questions can help you feel more comfortable with exercising. In this workshop you will meet the program’s exercise specialist, be able to ask questions and decide if the program is right for you.

Supervised Exercise Program

Sessions
Sessions vary by community. Call 1-877-314-6997 for more information.

Who it’s for
For individuals with one or more chronic conditions interested in learning how to exercise safely and experience the health benefits.

Description
Exercise can help you manage chronic conditions and stay healthy. Learning to do it safely will help you prevent injury and stay on track for living healthy.

In this program you will:
- Learn to use equipment safely in a community gym
- Learn how to self-monitor and stay safe while exercising
- Improve your strength, flexibility and endurance
- Have a one-on-one initial assessment (scheduled 1-2 weeks prior to start of the program)
- Participate in exercise classes under the guidance of an exercise specialist
- Have an assessment after completing the program.
