

**ALBERTA PRECISION  
LABORATORIES**

Leaders in Laboratory Medicine

# COMBINED LABORATORY & X-RAY TECHNOLOGIST

Health informed by world-class, integrated laboratory diagnostics.

## YOUR OPPORTUNITY

As a Combined Laboratory X-Ray Technologist (CLXT), you perform procedures in both the laboratory and diagnostic imaging departments and are responsible for the daily processing, testing, results analysis and reporting of diagnostic samples.

You will work closely with patients and perform a variety of procedures within the core laboratory and diagnostic imaging areas which are essential in diagnosis, treatment and research. Some of the procedures you will carry out include hematology, expanded chemistry, coagulation, urinalysis, specimen collection, preparation, and general diagnostic imaging.

CLXTs are well organized, service-oriented, have excellent attention to detail strong communication skills, and are passionate problem solvers.

## WHY ALBERTA PRECISION LABORATORIES?

APL is the new, wholly-owned subsidiary of Alberta Health Services and is ready to deliver high-quality, responsive diagnostic lab services to Albertans as a part of the provincial healthcare system. With competitive salaries, opportunities for professional development, and comprehensive benefits, you can truly thrive here. Make a difference in your own community as you help healthcare professionals and patients get the information that they need to improve, optimize, or maintain health.

## QUALIFICATIONS

- Completion of a diploma from an accredited program in Combined Laboratory and X-Ray Technology (CLXT).
- Active or soon-to-be eligible for registration with the Alberta College of Combined Laboratory and X-ray Technologists (ACCLXT).
- Recent cardiology education including ECG and Holter Monitor and Basic Cardiac Life Support (BCLS) Certification are also required.
