

**ALBERTA PRECISION
LABORATORIES**

Leaders in Laboratory Medicine

MEDICAL LABORATORY TECHNOLOGIST

Health informed by world-class, integrated laboratory diagnostics.

YOUR OPPORTUNITY

You're an analytical, detail-oriented problem-solver — just the kind of person we need at Alberta Precision Laboratories (APL). As a Medical Laboratory Technologist (MLT), you use a variety of sophisticated techniques and equipment to perform both routine and specialized laboratory tasks. You'll be responsible to ensure the equipment is working properly and troubleshoot as necessary to ensure accurate test results. Accurate results play a critically important role helping clinicians and patients get the information they need to prevent or diagnose disease, conduct research, monitor specific populations, or to restore, maintain, or optimize a patient's health. As an MLT, you can work in diverse facilities including hospitals, cancer care centres, research facilities, and community and public health laboratories or departments within them. Work on various specimens to confirm or rule out diagnoses, monitor chronic disease changes, and analyze the effects of medical therapies.

WHY ALBERTA PRECISION LABORATORIES?

APL is the new, wholly-owned subsidiary of Alberta Health Services and is ready to deliver high-quality, responsive diagnostic lab services to Albertans as a part of the provincial healthcare system. With competitive salaries, opportunities for professional development, and comprehensive benefits, you can truly thrive here. Make a difference in your own community as you help healthcare professionals and patients get the information that they need to improve, optimize, or maintain health.

QUALIFICATIONS

- Completion of an accredited Medical Laboratory Technology (MLT) program.
- Active or eligible for registration and practice permit with the College of Medical Laboratory Technologists of Alberta (CMLTA).
