

<b>L</b> iit	<ul> <li>Step 1: Complete a Genetic Resource Centre (GRC) Order</li> <li>Submit a Connect Care order for "Genetic Resource Centre Send-Out [LAB10047]". OR</li> <li>If you do not have access to Connect Care, complete a GRC requisition form.</li> <li>Your patient can have their blood drawn at any blood collection site in Alberta, and the sample will be forwarded to Molecular Genetics South for send-out.</li> <li>All other documents that are not available in Connect Care (e.g. pedigree, index patient report, clinic notes, etc.) should be submitted to the GRC electronically by email or fax.</li> <li>For specimen types other than blood, please complete a GRC requisition form in lieu of a Connect Care order. This requisition should be sent to the GRC electronically.</li> </ul>
	<ul> <li>Step 2: Complete the External Laboratory Online Order or Test Requisition</li> <li>If the requested test is listed on the <u>GRC Established Testing Menu</u>, you may complete the send-out paperwork either before or after your patient has their blood drawn.</li> <li>Include the test name and order ID number in the Connect Care order or send it to the GRC via email or fax. <ul> <li>For send-outs to Blueprint Genetics, click on "6-Share results" in the online order and share your order with <u>grc@ahs.ca</u>.</li> <li>For labs that do not have an online portal, complete the external lab requisition and email/fax it to the GRC.</li> <li>Do not provide a paper copy of the online order summary (including the consent form) to the GRC. Referencing the order ID number is sufficient.</li> <li>Signed consent forms can be faxed to the external lab by the clinical team or uploaded to the online portal order.</li> </ul> </li> <li>If the requested test is not listed on the GRC Established Testing Menu, the GRC will be in contact with you regarding lab selection and any further instructions.</li> </ul>
	<ul> <li>Step 3: Await Sample Shipment and Results</li> <li>The GRC will contact the ordering provider if additional information is needed to process your request.</li> <li>If no additional information is required, your patient's sample will be shipped to the external laboratory.</li> <li>Ordering providers will receive a notification through Connect Care or by fax when the sample has been shipped.</li> <li>Test results will be sent to the ordering provider directly from the external laboratory and uploaded to Connect Care by GRC staff.</li> </ul>
