RE:	New IT Interface for Laboratory Tests with MitogenDx Advanced Diagnostics Laboratory

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Message

- Alberta Precision Laboratories (APL) and Alberta Health Services IT department have implemented a new interface to the NIDUS Laboratory Information System used by the MitogenDx Advanced Diagnostics Laboratory (MitogenDx)
- All laboratory test results from MitogenDx will appear in EPIC, Netcare, MyAHS Connect, and My Health Record.

Background

- Previously the MitogenDx Advanced Diagnostics Laboratory used the Millennium Laboratory Information System.

How this will impact you

- Results in EPIC, Netcare, MyAHS Connect, and My Health Record may look different when displayed compared to standard APL tests due to the way results are delivered to EPIC.
- There is no impact to current workflows. You will no longer need to view a separate MitogenDx lab report.

Action Required

- No action required

Effective November 12, 2024

Questions/Concerns

- Renee Tatro, Beaker Application Lead Projects, Renee.Tatro@ahs.ca
- Kathy Ervin, Provincial Director Laboratory Systems, Kathy.Ervin@ahs.ca
