

<b>DATE:</b>	2022 July 11
<b>TO:</b>	All Oncologists and Pathologists in Alberta
<b>FROM:</b>	Anatomical Pathology Discipline Council
<b>RE:</b>	<b>Changes to Oncotype Dx Ordering</b>

---

**PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE**

---

### Key Message

- The indication for Oncotype Dx testing has been expanded to include HR-positive, HER2-negative breast cancer with macrometastases in 1-3 axillary lymph nodes.
- The **OncoType DX Requisition #21809** will be updated to reflect this change and will be available on the Alberta Precision Laboratories website: [Requisitions | Alberta Precision Laboratories \(albertaprecisionlabs.ca\)](https://albertaprecisionlabs.ca)

### How this will impact you

- Current/no change:** Oncotype Dx may be ordered by an Oncologist or designate.
- New:** Criteria for ordering has been **expanded** to include HR-positive, HER2-negative breast cancer with macrometastases in 1-3 axillary lymph nodes.
- Current resources are being revised to reflect the above change and will be available shortly:
  - Oncotype Dx™ Requisition #21809** <https://www.albertahealthservices.ca/frm-21809.pdf>.
  - Oncotype Dx™ Breast Cancer Molecular Testing and Reporting - Oncologist <https://ahs.labqms.com/labFrame.asp?DID=30711&FLDVr=1241>

### Action Required

- Ensure criteria for testing is documented on the OncoType DX Requisition:  
**Confirm Test Criteria:**

Node Negative / ITC / Micromets (1-3)	Node Positive (1-3)
<input type="checkbox"/> ER Pos	<input type="checkbox"/> ER Pos
<input type="checkbox"/> HER2 neg	<input type="checkbox"/> HER2 neg
<input type="checkbox"/> Grade 2 or 3	<input type="checkbox"/> Post menopausal
<input type="checkbox"/> Size greater than 1 cm	

**Effective July 11, 2022**
