

About the test:

If an individual requires a drug test for occupational, employment, legal or other personal reasons, APL will collect the sample using a Chain of Custody (CoC) protocol ONLY and forward it to a reference laboratory for testing. This assures you and your employer that your sample is secure and cannot be mixed-up or tampered with. A rigid protocol for testing the samples is employed at the testing laboratory that ensures the accuracy and legal admissibility of results. Drug screens can ONLY be ordered by a physician. Results will only be released to the ordering physician or Medical Review Officer (MRO). Testing is referred to Dynacare.

Appointments:

Appointments are required and available Monday to Friday 9:00 am to 2:00 pm.

Call 403-777-5136 to book an appointment at any one of the following locations:

- Airdrie PSC: 103 – 217 Centre Ave S.W., Airdrie
- Marlborough PSC: 455- 433 Marlborough Way N.E., Calgary. **(Marlborough is the only site for DOT Chain of Custody urine collections)**
- South Calgary Health Centre: 211 – 31 Sunpark Way S.E., Calgary
- Sheldon M. Chumir Health Centre PSC: 3rd Floor, 1213 4th Street S.W., Calgary

At the laboratory:

1. You will be asked for current photo identification (for example, a driver's license, passport, other government issued photo identification). If positive identification cannot be established, the collection process will be terminated.
2. You will be instructed by the collector to follow a clearly defined procedure. This includes removing heavy outerwear, emptying your pockets and washing your hands. Failure to cooperate with the collector will be deemed as a refusal to test and the collection process will be terminated.
3. Bluing agent has been put into the toilet and other water sources have been secured.
4. You will be instructed to display the contents of your pockets. For **DOT testing ONLY**: If it appears that items have been brought in to the laboratory to adulterate the sample, the collector is required to initiate an observed collection.
5. You will be asked to give at least 45 mL of urine. If your sample is less than the required amount, you will be offered water and instructed to remain at the collection site for up to 3 hours, until you are able to submit adequate sample volume.
6. Hand the sample to the collector as soon as possible after collection so that an accurate temperature can be attained. If the sample is not within the required temperature range, you will be asked to submit a second sample. For **DOT testing ONLY**: The collector is required to initiate an observed collection to obtain the second sample.
7. For **DOT testing ONLY**: If the collector has a reason to believe that you may have adulterated or substituted the specimen, the collector is required to initiate an observed collection.
8. The collector will seal your sample(s) with a security seal and you will initial it. The collector will date the seals. You will also fill out the portion of the form certifying that the sample is your freshly voided urine.
9. The samples will remain with the collector until they are sent to the testing laboratory.
10. All results are confidential and can be released only to the ordering physician or Medical Review Officer.
11. If this collection is at the request of your employer, a Medical Review Officer will contact you for any necessary follow up.

We appreciate your patience with the process. Our systems and protocols are designed to ensure accuracy and reliability of results.

Payment for collection and testing must be made BEFORE the collection (MC, VISA, Debit accepted) unless payment arrangements have been made to bill the company.

Drug Screen: DOT and Non-DOT Chain of Custody Protocol – Donor Information

Panels or single analyte(s) can be requested. The fee charged will be based on the panel of requested analyte(s), or individual tests (plus collection fee). \$50.00 collection fee will be applied to individual analyte requests, one fee per collection*.

DOT Urine Drug Screening and Confirmations Panel 5 DOT – DOT Amphetamines, Marijuana Metabolite, Cocaine, Opiates, Phencyclidine (PCP), Ecstasy, 6-AM (Heroin Metabolite) (includes collection fee)	\$87.35
NON-DOT Urine Drug Screening and Confirmations Panel 7 – DP7N Amphetamines, Marijuana Metabolite, Cocaine, Opiates, Phencyclidine (PCP), Ecstasy, 6-AM (Heroin Metabolite) (includes collection fee)	\$86.00
NON-DOT Urine Drug Screening and Confirmations Panel 7E - DP7E Amphetamines, Marijuana Metabolite, Cocaine, Opiates, Phencyclidine (PCP), Ecstasy, 6-AM (Heroin Metabolite) and Ethanol (includes collection fee)	\$91.00
NON-DOT Urine Drug Screening and Confirmations Panel 8 - U211 Amphetamines, Marijuana Metabolite, Cocaine, Benzodiazepines, Barbiturates, Opiates, Ecstasy,	\$93.00
NON-DOT Urine Drug Screening and Confirmations Panel 9 – U252 Amphetamines, Marijuana Metabolite, Cocaine, Benzodiazepines, Barbiturates, Opiates, Ecstasy, 6-AM (Heroin Metabolite), Oxycodone (includes collection fee)	\$95.00
NON-DOT Urine Drug Screening and Confirmations Panel 10 - U212 Amphetamines, Marijuana Metabolite, Cocaine, Benzodiazepines, Barbiturates, Opiates, Phencyclidine (PCP), Methaqualone, Ecstasy, 6-AM (Heroin Metabolite) (includes collection fee)	\$97.00
NON-DOT Urine Drug Screening and Confirmations Panel 11 - U245 Amphetamines, Marijuana Metabolite, Cocaine, Benzodiazepines, Barbiturates, Opiates, Phencyclidine (PCP), Methaqualone, Methadone, Ecstasy, 6-AM (Heroin Metabolite) (includes collection fee)	\$101.00

6-AM (Heroin Metabolite) - 6AM	\$11.00 *
Amphetamines - AMP	\$11.00 *
Barbiturates - 974	\$11.00 *
Benzodiazepines -981	\$11.00 *
Cocaine - BZE	\$11.00 *
Cotinine - COT5	\$21.00 *
Ecstasy - XTC	\$11.00 *
Ethanol only - 962	\$11.00 *
Ethyl Glucuronide - ETG	\$25.00 *
Fentanyl - FENT	\$11.00 *
Marijuana Metabolite - 961	\$11.00 *
Methadone -982	\$11.00 *
Methaqualone - 983	\$11.00 *
Opiates - 958N	\$11.00 *
Oxycodone - 988	\$11.00 *
Phencyclidine (PCP) - 964	\$11.00 *
Propoxyphene - 987	\$11.00 *
