

**Acute Laboratory Requisition**

Alberta Precision Laboratories 1-877-868-6848  
 DynaLIFE Medical Labs 1-800-661-9876 or 780-451-3702

**Appointment Booking & Locations:** [www.albertaprecisionlabs.ca](http://www.albertaprecisionlabs.ca) or [www.dynalife.ca](http://www.dynalife.ca)  
 Important - Form is used for regular and downtime use. **Bold** and *italicized* fields contain critical data elements that must be reconciled for downtime.

Scanning Label or Accession # *(lab only)*

**Do not use this as a patient requisition.**

**Refer for the APL Test Directory for current information on tube types, specimen requirements and specimen handling.**

**LEGEND**

**Blue Sodium Citrate**

**Gold SST**

**Mint PST (preferred but Gold SST is also acceptable)**

**Lavender EDTA**

**Refer to APL Test Directory for information**

| Hematology/Coagulation   | Endocrine                                      | Clinical Information   |
|--|--|--|
| CBC and Differential CBC No Differential                                     | Cortisol                                       |  |
| Reticulocyte Count   | Random AM (0700-1000) PM (1500-1800)           |  |
| PTT INR Fibrinogen   | Estradiol                                      |  |
| <b>D-dimer Refer to APL Test Directory</b>                                   | Follicle Stimulating Hormone (FSH)             |  |
| <b>General Chemistry</b>   | Luteinizing Hormone (LH)                       | <b>Toxicology (Quantitative, Blood)</b>                          |
| Albumin  | Parathyroid Hormone (PTH)                      | Acetaminophen Level  |
| Alkaline Phosphatase (ALP)   | Progesterone                                   | Salicylate Level   |
| Alanine Aminotransferase (ALT)   | Prolactin                                      | Ethanol Level  |
| <b>Ammonia Refer to APL Test Directory</b>                                   | Testosterone, Total                            | Alcohol Panel (Ethylene Glycol, Methanol, Iso-propanol, Acetone) |
| <b>Anti-Neutrophil Cytoplasmic Antibody (ANCA)</b>                           | Thyroid Stimulating Hormone (TSH)              | <b>Therapeutic Drug Monitoring</b>                               |
| Bilirubin, Total OR Total and Conjugated                                     | Thyroid Stimulating Hormone (TSH), Progressive | Dose route Oral IV Other   |
| <b>B-Natriuretic Peptide (BNP or NT-Pro BNP) Refer to APL Test Directory</b> | <b>Immunology/Serology</b>                     | Dose Regimen _____   |
| Calcium  | Hepatitis A Virus Acute Serology - IgM         | How Long on Current Regimen? _____                               |
| Complement C3  | Hepatitis A Virus Immunity Serology - IgG      | Date of Last Dose or IV Complete _____                           |
| Complement C4  | Hepatitis B Surface Antigen                    | Time of Last Dose or IV Complete _____                           |
| Creatine Kinase (CK)   | Hepatitis B Surface Antibody                   | Date of Next Dose or IV Start _____                              |
| <b>Calcium, Ionized Refer to APL Test Directory</b>                          | Hepatitis C Virus Serology                     | Time of Next Dose or IV Start _____                              |
| C-Reactive Protein (CRP)   | HIV 1 and 2 Serology (Antigen and Antibody)    | Carbamazepine Phenytoin, Total                                   |
| Creatinine (eGFR)  | Mononucleosis Screen                           | Cyclosporine pre dose Sirolimus                                  |
| Electrolyte Panel OR Na K Cl CO2   | <b>Refer to APL Test Directory</b>             | Cyclosporine 2 h post Tacrolimus                                 |
| Ferritin   | Syphilis screen                                | Digoxin Theophylline   |
| Gamma Glutamyl Transferase (GGT)   | <b>Urine</b>                                   | Lithium Valproate  |
| Glucose, Random  | <b>Refer to APL Test Directory</b>             | Phenobarbital Other  |
| Beta hCG, Quantitative   | Urinalysis                                     | <b>Antibiotics</b>   |
| Immunoglobulins: IgA IgG IgM   | Pregnancy Test (HCG, Qualitative)              | Amikacin Pre Post Other  |
| Iron Overdose  | Osmolality                                     | Gentamicin Pre Post Interval Other                               |
| Iron and TIBC  | Albumin* Random 24 h                           | Tobramycin Pre Post Interval Other                               |
| <b>Lactate Refer to APL Test Directory</b>                                   | Calcium* Random 24 h                           | Vancomycin Pre Other   |
| Lactate Dehydrogenase (LD)   | Creatinine Random 24 h                         | <b>Anticoagulant</b>   |
| Lipase   | Cortisol 24 h                                  | Anti-Xa - Unfractionated Heparin                                 |
| Magnesium  | Electrolyte Panel Random 24 h                  | Anti-Xa - LMWH   |
| Osmolal Gap  | Protein Total* Random 24 h                     | Anti-Xa - Apixaban   |
| Osmolality   | Protein Electrophoresis Random 24 h            | Anti-Xa - Rivaroxaban  |
| Phosphate  | *includes creatinine ratio                     | <b>Sterile Body Fluids</b>                                       |
