Dr. B. Popma, Acting Medical Director

Re: 29-10 INR Routine Broadcast Discontinued

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Message:

- **Routine** INR results will no longer trigger an automatic broadcast print.

Currently:

- Stat, Urgent and **Routine** INR results broadcast to a printer each time the test is result

Why this is Important:

- Many **Routine** INR Broadcast reports are manually faxed to a physician office or location. Duplicate reports are then generated via the COAG Report Print, Lab Report Prints or Electronic Report Transmissions.
- This will eliminate duplication, manual transmission of results, incorrect fax number errors, breaches of confidentiality, and will save paper and staff time.

Action Required:

- Routine INR results (Coag Report Print) Telecom jobs can be set up to automatically print at specified times of the day.
- Return the attached form to the Lab Information Department (CHR site) Rm 3F102H with desired print time for your location.
- If no response is received, a separate COAG Report Print will not be set up.

Effective Date: August 30, 2010

For additional questions contact:

- Lab Information Department 403-388-6091 or 403-388-6111 ext 1934
