Re: Revised Molecular Pathology Requisition

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Messages:

On September 8, 2016 a revised Molecular Pathology requisition became available for use.

Why this is important:

The revised requisition now includes a number of new and soon to be offered tests by the Molecular Pathology laboratory. In addition, there have been significant changes to the design of the requisition. A fillable PDF version of the requisition where clients can electronically type in the required information and print it off the website is now available.

Action Required:

Moving forward, please ensure that the most up-to-date version of the Molecular Pathology requisition is used. The revised Molecular Pathology requisition is available on the Alberta Health Services website. It can be located using either of the following two links:

<http://www.albertahealthservices.ca/3320.asp> (Edmonton Zone requisitions) or
<http://www.albertahealthservices.ca/8667.asp> (Genetic Laboratory Services page)

Alternatively, a print version is available through DATA Group (form # CH-1230). A new web portal for DATA Group online users is now available. To log onto the DATA Online (DOL) system or to register for a new DOL account, please visit <https://dol.datacm.com>. If you have questions regarding the DOL system, please contact DATA Group at:

- Edmonton & North Zone users: email ahsedmonton@datacm.com phone 780-577-8295
- Central, Calgary & South Zone users: email ahscalgary@datacm.com phone 403-207-6631

Inquiries and feedback may be directed to:

Teresa Paonessa, Medical Laboratory Technologist III, 780-407-2895
Dr. Iyare Izevbaye, Lab Head, Molecular Pathology Laboratory, GLS, 780-407-8025

This bulletin has been reviewed and approved by:

Dr. Martin Somerville, Medical/Scientific Director, Genetic Laboratory Services
Dr. Carolyn O'Hara, Interim Provincial Medical Director, AHS Laboratory Services
