Re: Spinal Fluid Collection Protocol Form

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Messages:

The Spinal Fluid Collection Protocol form has been updated. The new version of this form is 09393(Rev2014-08)

The updated form clearly indicates the required testing (solid bullets) and the optional testing (open check boxes) for each protocol

Why this is important:

- Use of the most current version of the collection protocol will ensure that the appropriate testing is completed in a timely manner

Action Required:

- Please discard all copies of the Spinal Fluid Collection Protocol form that are not the current version
- Please obtain required copies of the form as required: on Insite or on the DTH Guide to Lab Services

Inquiries and feedback may be directed to:

Lezlie Rein, AHS Laboratory, Laboratory Technologist II, Red Deer Regional Hospital Hematology,
lezlie.rein@albertahealthservices.ca , 403-343-4727
