Re: Discontinuing distribution of infusion sets

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Messages:

- Effective June 1, 2015, South Zone East Transfusion Medicine Laboratories will no longer distribute Alaris C70101 infusion sets for IVIG and albumin. They will continue to be available through stores.
- Departments that infuse IVIG and albumin will be required to stock an appropriate administration set.
- Information on acceptable administration sets for blood products is available from the provincial Transfusion Medicine website at www.albertahealthservices.ca/10380.asp - Blood Components and Products Information

Action Required:

- Nursing departments that infuse IVIG and albumin will need to stock an appropriate administration set based on product requirements, patient needs, and infusion equipment.

Inquiries and feedback may be directed to:

Erik Lane, Hematology/Transfusion Medicine Tech II, Medicine Hat Regional Hospital
Jacquie Hess, Hematology/Transfusion Medicine Tech III, Medicine Hat Regional Hospital
Konra Mueller, Transfusion Safety Tech II, South Zone
