

Memorandum

Date: September 27, 2016

To: Calgary Zone Physicians and Rural Physicians, Lethbridge, Red Deer, Medicine Hat Physicians, All Immunologists, U of A Referrals

From: Christine Hopkins, Supervisor Flow Cytometry

Re: Updated Flow Cytometry Requisition

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Messages:

- The Flow Cytometry Requisition (FC3200) has been updated and is available.

Background:

- The Flow Cytometry laboratory has expanded the Immunodeficiency Investigation testing menu to offer additional immunophenotypic and functional assays for first line screening and diagnosis of primary immunodeficiencies in both pediatric and adult patients.

Action Required:

- Obtain and immediately begin using updated requisitions when requesting Flow Cytometry testing.
- Update requisitions are available at:
<http://www.calgarylabservices.com/files/HealthcareProfessionals/Requisitions/FC3200.pdf>.
- Ensure you discard all previous versions.

Inquiries and feedback may be directed to:

Christine Hopkins, Supervisor Flow Cytometry @ 403-770-3366 or christine.hopkins@cls.ab.ca
