Re: Revised Molecular Pathology Requisition

PLEASE POST OR DISTRIBUTE AS WIDELY AS APPROPRIATE

Key Messages:

On April 15, 2014, a revised Molecular Pathology requisition became available for use.

Why this is important:

The revised requisition now includes the entire test menu offered by the Molecular Pathology laboratory. In addition, there have been significant changes to the design of the requisition. A fillable version of the requisition where clients can manually type in the information and print it off the website is now available.

Action Required:

The revised Molecular Pathology requisition is now on the Alberta Health Services website. It can be located using either of the following two links:

<http://www.albertahealthservices.ca/3320.asp> (Edmonton Zone requisitions) or
<http://www.albertahealthservices.ca/8667.asp> (Genetic Laboratory Services page)

Alternatively, a print version is available through DATA Group (form # CH-1230). They can be reached at 780.577.8295 or at ahsedmonton@datagroup.ca.

For further test information, please refer to the AHS Edmonton Zone Test Directory at
<http://www.albertahealthservices.ca/3217.asp>.

Inquiries and feedback may be directed to:

Teresa Paonessa, Medical Laboratory Technologist III, 780.407.2895
Dr. Iyare Izevbaye, Director, 780.407.8025
